

RAMPACK 100

Producing up to **150kg** bales

Powered from a standard 13 or 16 Amp plug, the RAMPACK 100 exerts **MAXIMUM PRESSURE** to produce bales weighing up to 150kg. This mid-range model has a 1m x 1m Extended Loading Aperture to allow for larger boxes and fast throughput. Retaining teeth make the R100 deal for baling both cardboard and plastic.

Technical Data

- Height: 2.8m
- Width: 1.5m
- Depth: 0.98m
- Weight: 780kg
- Power Supply: 220 volt 1.5kw
- Cycle Time 35 Sec

Noise Certification

This machine is certified at 72 d(B)A. Which adheres to the 1990 noise regulation requirements.

Bale Dimensions

- Height: 1.0m
- Width: 0.95m
- Depth: 0.8m
- Bale Weight: Up to 150kg (Dependant on Material)
