

# RAMPACK 400

Producing MILL-SIZE Bales

This powerful unit has an auto-eject system and exerts evenly applied pressure via TWIN-RAMS, turning your recyclable material/s into 'wire-tied' **MILL-SIZE BALES** of up to 500kg - optimising rebate values and greatly reducing waste disposal costs.

#### Technical Data

-Height: 3.00m)  
-Width: 1.73m  
-Depth: 1.19m  
-Weight: 1300kg  
-Power Supply: 400 volt 11kw  
32 amp 3 Phase  
-Cycle Time: 40 Seconds

#### Noise Certification

This machine is certified at 75 d(B)A. Which adheres to the 1990 noise regulation requirements.

#### Transport Height

2.3m

#### Bale Dimensions

-Height: 1.00m (3' 3")  
-Width: 1.20m (3' 11")  
-Depth: 0.80m (2' 7")  
**-Bale Weight: 400 - 500kg**  
(Dependant on Material)

Loading Aperture (HxW): .68m x 1.2m
