

RAMPACK TC60

Producing up to **75kg** bales

TWIN & TRIPLE CHAMBER BALERS

Powered from a standard 13 Amp plug and with TWO or THREE large loading apertures, the RAMPACK TC60 & TRC60 exert **MAXIMUM PRESSURE** to produce bales weighing up to 75kg. These models can be used for baling **CARDBOARD, PLASTICS** and even **GENERAL WASTE**. Ideal for the segregation of materials at source.

Technical Data

- Height: 1978 mm
- Width: 2050 mm
- Depth: 820 mm
- Weight: 562 kgs
- Power Supply: 220 volt 1.5kw
- Cycle Time 35 Sec

Noise Certification

This machine is certified at 72 d(B)A. Which adheres to the 1990 noise regulation requirements.

Bale Dimensions

- Height: 1.0m (3' 3")
- Width: 0.70m (2' 3")
- Depth: 0.50m (1' 8")
- Bale Weight: Up to 75kg (Dependant on Material)
